

# Avast One

Peace of mind with powerful protection for your life online

The all-in-one service that gives you the freedom to maximize your life online with an award-winning antivirus, unlimited VPN, advanced privacy, and device cleanup tools to help you stay private and safe.

## Device Protection

Peace of mind with an award-winning antivirus on your side that's heavy on features, but won't slow you down.

## Online Privacy

Protect your identity and personal information from cybercriminals, and stay as private as you want online.

## Smooth Performance

Speed up, clean up, and update your devices so they perform like new for longer.

## The need

- **The internet is changing — and digital protection needs to extend beyond antivirus.**  
Avast One protects against emerging threats to your privacy online.
- **Today, over 60% of the world — about 4.8 billion people — is online.**  
Avast One is a fully integrated digital service that is easy to use everyday.
- **The gap between the digital world and the “real” world is decreasing.**  
Avast One offers protection whenever, wherever you need it across mobile and desktop.

## Comprehensive peace of mind

### Stay safe from scams

- Take charge of your online and device safety thanks to **regular feedback on your digital habits and personalized tips.**
- Ensure you don't fall victim to a scam by **blocking dangerous attachments** to emails from being downloaded and warning you before you open a dangerous link from messaging apps.
- Keep your online accounts secure by getting an **alert if a password is compromised** in a data breach and getting help re-securing impacted accounts.

### Get the most out of your investment

- Keep your **devices running smoothly** by finding and installing software updates for the most popular apps and driver updates for your PC's components in just a few clicks.
- Free up **more device storage space** for what really matters by finding the files you don't need and safely deleting them with a powerful Disk Cleaner.
- Get the most out of your PC's processing power by choosing which apps can run in the background with PC Speedup.

### Privacy made easy

- Ensure your online activity is truly anonymous thanks to **one-click privacy with fast, unlimited VPN and anti-tracking technology.**
- Know when you could use **more privacy thanks to timely recommendations** based on your online activity or when you connect to an untrusted or public Wi-Fi network.
- Take back control of your personal data with **short, easy-to-follow guides** to tailor your privacy settings for some of the most popular websites and apps, like Facebook and Amazon.

### Leading security solution

- Keep yourself and your family safe from the latest online threats thanks to an **award-winning antivirus** with our **most advanced protection** against ransomware, advanced malware, and more.

### Fast, easy to use protection for all your devices

- Available on Windows, MacOS, iOS and Android
